

STANDARD FOR CONTINUING COMPETENCY IN FETAL HEALTH SURVEILLANCE

The midwife will have completed an educational session/workshop in Fetal Health Surveillance (FHS) every two (2) years. The midwife will present evidence of participation upon annual renewal of registration.

Acceptable courses include:

- *Fundamentals of Fetal Health Surveillance* (in-person course or self-learning manual)
- AWHONN Fetal Health Monitoring Course
- Other equivalent courses

Where a midwife is a certified FHS instructor she will be considered to have met the above requirements when she provided evidence of having taught at least one FHS course in the two (2) years prior to renewal of registration.
